EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Strauss on 11/9/07.

Please replace claim 25 with:

25. A method of securely interfacing control links of respective communication networks, comprising the steps of:

exchanging control data messages between a remote communication network and a local signaling communication system;

decrypting a certificate portion of said control data messages including a time stamp so as to authenticate originating point code information corresponding to said control data messages and, in response to said time stamp, determine if said control data messages are chronologically sequenced based on said time stamp so as to determine control message chronological sequencing;

selectively communicating, in response to said decrypting step, control data messages between central office switching systems; and

selectively providing switched call connections between at least two of the local communication links in response to predetermined control data messages.
